

MINIMUM IMMUNIZATION REQUIREMENTS FOR SCHOOL ENTRY

Immunization Requirement by Age	Doses of Vaccines Required
Children born on or before September 1, 1999 must have a minimum of:	(4) Diphtheria, Tetanus, Pertussis (DTaP) (1) Measles, Mumps, and Rubella (MMR) (3) Polio (3) Hepatitis B
Children born after September 1, 1999 through September 1, 2005 must have a minimum of:	(5) Diphtheria, Tetanus, Pertussis (DTaP) ² (2) Measles, Mumps, and Rubella (MMR) (3) Polio (3) Hepatitis B
Children born after September 1, 2005¹ must have a minimum of:	(5) Diphtheria, Tetanus, Pertussis (DTaP) ² (2) Measles, Mumps, and Rubella (MMR) (4) Polio ³ (3) Hepatitis B (2) Varicella (Chickenpox) ⁴ (2) Hepatitis A

7th GRADE IMMUNIZATION REQUIREMENTS

Immunization Requirement by Grade ⁵	Doses of Vaccines Required
Children admitted to 7th grade must meet the following minimum immunization requirements in addition to school entry requirements:	(1) Tetanus, Diphtheria, Pertussis (Tdap) (1) Meningococcal

1. Preschool children need only be age-appropriately immunized with the required vaccines.
2. DTaP: The 5th dose is not necessary if the 4th dose was administered at age 4 years or older.
3. Polio: The 4th dose is not necessary if the 3rd dose was administered at age 4 years or older **and** at least 6 months after previous dose.
4. Varicella: History of chickenpox disease documented by a physician or licensed health care professional meets the requirement.
5. 7th Grade Requirement: This requirement will be extended to: 7th-8th grade students in 2012, 7th-9th grade students in 2013, 7th-10th grade students in 2014, 7th-11th grade students in 2015, and 7th-12th grade students in 2016.

CONDITIONAL ADMISSION: The Schedule of Intended Immunizations Form is required by IDAPA 16.02.15 to document the intended immunization schedule of a child who has not received all required immunizations for school admission. To be eligible for conditional admission, a child must have received at least one dose of each required vaccine and currently be on schedule for subsequent immunizations following the intervals listed below. Failure to receive still-needed doses of required vaccines as indicated on the Schedule of Intended Immunizations Form will result in exclusion of the child from school until the child is back on schedule with no required vaccine doses due.

ABBREVIATED CATCH-UP IMMUNIZATION SCHEDULE⁴

Vaccine	Minimum Age for Dose 1	Minimum Interval Between Doses			
		Dose 1 to Dose 2	Dose 2 to Dose 3	Dose 3 to Dose 4	Dose 4 to Dose 5
DTaP	6 wks	4 weeks	4 weeks	6 months	6 months ¹
Polio	6 wks	4 weeks	4 weeks	6 months ²	
MMR	12 mo	4 weeks			
Hepatitis B	Birth	4 weeks	8 weeks ³		
Varicella	12 mo	3 months			
Hepatitis A	12 mo	6 months			

1. DTaP: The 5th dose is not necessary if the 4th dose was administered at age 4 years or older.
2. Polio: The 4th dose is not necessary if the 3rd dose was administered at age 4 years or older **and** at least 6 months after previous dose.
3. Hep B: Minimum age for the 3rd dose is 24 weeks **and** at least 16 weeks after first dose.
4. To enter the 7th grade, students are required to have one dose of Tdap and one dose of Meningococcal vaccine; because a child must have received at least one dose of each required vaccine to be eligible for conditional admission, Tdap and Meningococcal are not included on the Idaho Conditional Admission to School form.

All children must present a valid immunization record to school officials, unless exempted.

When must it be presented? The parent/guardian must present the proof of immunization status at the time of registration and before attendance for a child entering or transferring into preschool and grades K-12. Students entering 7th grade must present proof of meeting immunization requirements before entry into the 7th grade.

What do schools do with it? School staff must carefully review the record to ensure that all requirements have been met and must retain a hardcopy of the record on file at the school.

EXEMPTIONS: Idaho law allows a parent/guardian to claim an exemption from immunization requirements for their child for medical, religious, or personal reasons. All exemptions must be documented on the official State of Idaho form provided by the Idaho Department of Health and Welfare, Immunization Program. A medical exemption requires the signature of a licensed physician and certification that the child has a medical condition which prevents him or her from receiving required vaccinations. The law does not allow parents/guardians to claim an exemption because the shot record is lost or incomplete, or because it is too much trouble to contact the physician or clinic and obtain a copy. Schools should maintain an up-to-date list of pupils with exemptions so they can be excluded quickly if an outbreak occurs.
